DIARY NOTES

DD/S *W JH*

6 June 1963

1. At the Executive Committee Meeting this morning Mr. Houston advised the Director that an appointment had been made for him to meet with the Vinson Committee at 10:00 a.m. on Monday, 10 May. The Director said that he would want a pre-briefing session, probably on Saturday, inasmuch as early retirement legislation will probably at least be mentioned. I alerted Emmett Echols and told him to contact Larry for any assistance he might need. ^{25X1A}

4. [REDACTED] advised me that John Bross had requested concurrence in the purchase of some RCA 501 equipment. Joe said that, inasmuch as the break-even point on rental/purchase is about 13 months, he has concurred. I approved.

5. [REDACTED] and [REDACTED] were up to talk to me about premium pay. [REDACTED] was adamantly opposed to premium pay for grade GS-11's and above; however, if we are going to give it to the rest of the Agency he wanted it for his people, too. I assured him that the purpose of Emmett's questionnaire was to take a reading on where we stood on this whole subject and to get some policy decisions made as to where we are going.
